

## *THE PRODUCT OF THE MONTH:*

### **CONCRETE STAIN**

Dear customer we would like to introduce our new line of Concrete Stain. This amazing product is a ready-to-use, penetrating, acidic stain that chemically reacts with cured concrete to produce permanent, variegated or translucent color effects. The stain penetrates new or existing concrete. It can also be used with other cementitious materials and natural stone, providing a unique look and final color to each surface.

#### **Colors available:**

- Blackfoot
- Ember
- Neptune
- Jade
- Bluegrass
- Kodiak
- Buckwheat
- Adobe
